INDEPENDENT AUDITOR'S REPORT

Mr. Brian S.Colón,
New Mexico State Auditor
Honorable Mayor and Town Council
Town of Edgewood
Edgewood, New Mexico

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue fund of the Town of Edgewood, New Mexico (the "Town"), as of and for the year ended June 30, 2020, and the related notes to the financial statements which collectively comprise the Town's basic financial statements as listed in the table of contents. We did not audit the 2019 Schedule of Employer Allocations and Pension Amounts of the State of New Mexico Public Employee Retirement Association (PERA), the administrator of the cost sharing pension plan for the Town. The schedules and statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Town, is based solely on the report of the other auditors.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

Management has not implemented proper internal controls over governmental or business-type capital assets, nor over the expenditures and expenses related to the governmental and enterprise funds sufficient enough to provide evidence that all balances of capital assets are accurate and complete. The capital assets listing was not complete and accurate prior to approval and certification. During our audit, we noted several items which were not included in the assets listing prior to its certification. The amount by which this departure would affect the assets, fund balances, net position, revenues, and expenditures/expenses of the governmental activities and business-type activities has not been determined.

Qualified Opinion

In our opinion, except for the possible effects of the matter described in the "Basis for Qualified Opinion" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund, and the aggregate remaining fund information of Town of Edgewood, as of June 30, 2020, and the respective changes in financial position where applicable, cash flows thereof and the respective budgetary comparisons of the general fund and major special revenue fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require the management's discussion and analysis on pages 8 - 16, the Schedule of the Proportionate Share of the Net Pension Liability, the Schedule of Contributions, the notes to the required supplementary information and the Schedule of the Proportionate Share of the Net OPEB Liability and Schedule of Contributions - OPEB on pages 84 - 90 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with the auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the Town's financial statements, that collectively comprise the Town of Edgewood's basic financial statements. The combining and individual nonmajor fund financial statements and the other schedules as required by Section 2.2.2 NMAC are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, and the other schedules required by Section 2.2.2 NMAC are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statement and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, except for the effects of the matters described in the "Basis for Qualified Opinion" paragraph, the combining and individual nonmajor fund financial statements, and the other schedules as required by Section 2.2.2 NMAC are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2020 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

**STATE OF NEW MEXICO
TOWN OF EDGEWOOD
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2020**

This section of Town of Edgewood's annual financial report presents our discussion and analysis of the Town's financial performance during the fiscal year ended June 30, 2020. Please read it in conjunction with the Town's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the Town of Edgewood exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year end by \$10,507,519 (net position).
- The Town's total net position decreased by \$496,391 during the fiscal year. The decrease was due to the Town having a decrease in revenues and increase in expenses. This is primarily due to the decrease in spending of funds on capital outlay as compared to prior years.
- As of June 30, 2020, the Town's governmental funds reported combined ending fund balances of \$4,361,690. Of this total, \$2,500,857 is restricted for special revenue, capital projects, debt service and other restricted items.
- The Town assessed and began collecting a property tax in 2016 to service debt. Property tax revenue was \$733,804 in 2020.
- At the close of the current fiscal year, unassigned fund balance of the general fund was \$1,875,771.

Overview of the Financial Statements

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the Town:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Town's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the Town's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- Proprietary fund statements offer short-term and long-term financial information about the activities the government operates like businesses.

Government-Wide Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Edgewood's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the Town of Edgewood's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town of Edgewood is improving or deteriorating.

**STATE OF NEW MEXICO
TOWN OF EDGEWOOD
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2020**

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

Both of the government wide financial statements distinguish functions of the Town of Edgewood that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business type activities). The governmental activities of the Town of Edgewood include general government, public safety, highways and streets and culture and recreation. The business type activities of the Town include waste water services.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Edgewood, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Edgewood can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows* and *outflows of expendable resources*, as well as on *balances of expendable resources* available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the Town's programs.

Because the focus of governmental funds is narrower than that of the government wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government wide financial statements. By doing so, readers may better understand the long term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**STATE OF NEW MEXICO
TOWN OF EDGEWOOD
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2020**

The Town maintains twenty individual governmental funds organized according to their type (general, special revenue, capital projects and debt service). Information is presented separately in governmental fund balance sheet and statement of revenues, expenditures, and changes in fund balances for the General Fund, and Capital Projects Fund, all of which are considered to be major funds. Data from the other eighteen governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Town of Edgewood adopts an annual appropriated budget for its general fund and all other funds. A budgetary comparison statement has been provided for the all of the major (General fund and Special revenue fund) governmental funds to demonstrate compliance with this budget.

Proprietary Funds

Proprietary funds are generally used to account for services for which the Town charges customers either outside customers or internal units or departments of the Town. Proprietary funds provide the same type of information as shown in the government - wide financial statements, only in more detail. The Town maintains one proprietary fund, the Waste Water Fund. The proprietary fund is used to report the same functions presented as business type activities in the government wide financial statements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government - wide and fund financial statements. The notes to the financial statements can be found beginning on of this report.

Combining Statements

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the notes to the financial statements.

Analysis of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$10,507,519 at the close of the current fiscal year.

**STATE OF NEW MEXICO
TOWN OF EDGEWOOD
MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2020**

The largest portion of the Town of Edgewood's net position represent the Town's investment of \$10,326,567 in capital assets (e.g., land, construction in progress, improvements, buildings, infrastructure, vehicles and furniture, fixtures and equipment), less any related outstanding debt used to acquire those assets. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the Town's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets is a deficit of \$2,319,905 which if were positive, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in all categories of net position, except in unrestricted for the government as a whole.

Analysis of Changes in Net Position

During the current fiscal year, the Town's net position in governmental and business-type activities decreased by \$496,391. These decreases are explained in the governmental and business-type activities discussion that follows.

Governmental Activities

Governmental activities decreased the Town's net position by \$201,350. Revenues not including transfers decreased from \$7,097,076 for the year ended June 30, 2019 to \$6,869,573 for the year ended June 30, 2020. The decrease in revenues is primarily because the Town received more capital grant money in 2019. Governmental expenses increased from \$5,438,943 for the year ended June 30, 2019 to \$6,889,255 for the year ended June 30, 2020.

Business-Type Activities

Business-type activities decreased the Town's net position by \$295,041 after transfers in of \$181,668 from governmental activities, compared to the prior year's increase of \$411,033 after transfers of \$938,349 from the governmental activities. The wastewater system continues to require transfers for fund operations, repairs and maintenance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Analysis of the Town of Edgewood as a Whole

As noted earlier, the Town of Edgewood uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the Town of Edgewood's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *expendable* resources. Such information is useful in assessing the Town of Edgewood's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the Town include the General Fund, Special Revenue Funds, Capital Project Funds and Debt Service Funds.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$4,361,690, an increase of \$514,655 in comparison with the prior year. Approximately 43% of this total amount, or \$1,860,833, constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance, \$2,500,857 is restricted to indicate that it is not available for new spending because it has already been restricted to pay special revenue, capital projects, debt service and other restricted items. The increase in fund balance for the year ended June 30, 2020 is primarily due to the decrease in spending of funds that the Town received for the governmental activities.

Revenues for governmental functions overall totaled \$6,869,573 in the year ended June 30, 2020 which represents a decrease of \$227,503 from the year ended June 30, 2019. Expenses for governmental functions totaled \$6,889,255 in the year ended June 30, 2020. This was an increase of \$1,450,312 from the fiscal year ended June 30, 2019. In the fiscal year-ended June 30, 2020, expenditure for governmental functions exceeded revenue by \$19,682 (excluding transfers).

The General Fund is the chief operating fund of the Town. At the end of the current fiscal year, the fund balance of the General Fund was \$1,875,771, which consisted of \$0 restricted fund balance and \$1,875,771 unassigned fund balance.

The fund balance of the Town's General Fund increased by \$593,949 during the current fiscal year.

Proprietary Funds

The Town's proprietary funds provide the same type of information found in the government - wide financial statements, but in more detail.

At the end of the fiscal year, the unrestricted net position for the Waste Water Fund was a deficit of \$41,135. The total decrease in net position for the proprietary fund was \$295,041. The decrease in net position were primarily due to the professional services and repairs and other necessary plant maintenance in 2020 to comply with the prior year notice of violation. The Town took over operations of the wastewater treatment plant from a contracted private operator in January 2018 and started making necessary significant repairs and improvements to the plant to stay in compliance with the discharge permit and improve operations.

General Fund Budgetary Highlights

The discussion that follows presents financial data based upon the budgetary basis of accounting. Please refer to the notes of the financial statements for an explanation of the differences of accounting regarding the budget.

During the current fiscal year, the Town budgeted general fund revenues at \$5,538,712. The actual revenues for the fiscal year were \$5,520,279, which is \$18,433 lower than budgeted.

For the year ended June 30, 2020, general fund expenditures (excluding transfer out) were under budget by \$117,370.

Capital Asset and Debt Administration

Capital Assets

The Town of Edgewood's capital assets for its governmental and business-type activities as of June 30, 2020 amount to \$16,897,705 (net of accumulated depreciation). Capital assets include land, construction in progress, improvements, buildings, infrastructure, vehicles and furniture, fixtures and equipment. The total additions to the Town's capital assets (excluding accumulated depreciation) for the current fiscal year was \$94,229 for governmental activities. Infrastructure, furniture, fixtures and equipment and vehicles costing were \$94,229, and land and construction in progress of \$0 was added in the year ended June 30, 2020.

The following is a schedule showing the Net Value of the Capital Assets as of the fiscal year end:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Entity: The Town of Edgewood ("Town") was incorporated in 1999 under the laws of the State of New Mexico. The Town operates under a Mayor-Council form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, health and social services, culture and recreation, education, public improvements, planning and zoning, general administrative services and a waste water utility.

The Town's financial statements are prepared in accordance with generally accepted accounting principles ("GAAP"). The Governmental Accounting Standards Board ("GASB") is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board ("FASB") do not conflict with or contradict GASB pronouncements. Although the Town has the option to apply FASB pronouncements issued after that date to its business-type funds, the Town has chosen not to do so. The more significant accounting policies established in GAAP and used by the Town are discussed below.

A. Financial Reporting Entity

As required by GAAP, the financial statements present the Town and entities for which the Town is considered to be financially accountable. There are no component units for the fiscal year ended June 30, 2020.

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and enterprise funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

STATE OF NEW MEXICO
TOWN OF EDGEWOOD
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

The government-wide financial statements are reported using the economic *resources measurement focus and the accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Enterprise funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with proprietary fund's principle ongoing operations.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are recorded.

Governmental financial statements are reported using the *current financial resources measurement focus and the modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is made.

The Town follows the following revenue recognition principles applied to nonexchange transactions which are in accordance with GASB Statement 33, *Accounting and Reporting for Nonexchange Transactions*:

Derived tax revenues are recognized as revenue in the period when the underlying exchange transaction has occurred and the resources are available. Derived tax revenues include gross receipts tax, gasoline taxes, and cigarette taxes.

Imposed nonexchange revenue other than property taxes are recognized in the period when an enforceable legal claim has arisen and the resources are available.

Property tax revenue is recorded on an accrual basis and the revenue is recognized in the fiscal year for which the taxes are levied.

Government-mandated nonexchange transactions and voluntary nonexchange transactions are recognized when all applicable eligibility requirements have been met and the resources are available. These include grant revenues, state shared taxes and intergovernmental revenue. Grant revenues are recognized as revenues when the related costs are incurred.

Other revenues susceptible to accrual are investment income and charges for services. All other revenues are recognized when they are received and are not susceptible to accrual because they are usually not measurable until payment is actually received.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

Property taxes are levied and collected by the Santa Fe County Treasurer on behalf of the Town. Property taxes are levied in November and are payable in two installments, half on November 10 which becomes delinquent on December 10 and half on April 10 which becomes delinquent on May 11, which is also the lien date.

The Town reports the following major governmental funds:

General Fund. The general fund is the Town's primary operating fund. It accounts for all the financial resources of the general government, except those required to be accounted for in another fund.

Capital Projects Fund. A capital projects fund that accounts for money received and expended for capital projects.

The Town reports the following major proprietary fund:

Waste Water Fund. This fund accounts for all the financial resources and expenditures related to the waste water system.

B. Cash and Investments

Cash includes amounts in demand deposits. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

All investments are stated at fair value which is determined by using selected bases. Interest income and realized gains and losses on investment transactions are included for financial statement purposes as investment income.

C. Capital Assets

Capital assets which include software, library books, property, plant, equipment, vehicles, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000, per Section 12-6-10 NMSA 1978, and an estimated useful life in excess of one year.

**STATE OF NEW MEXICO
TOWN OF EDGEWOOD
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management Discussion and Analysis for State and Local Governments allows phase III governments an exemption from the retroactive application of the capitalization requirements to major general infrastructure assets. The Town has elected not to retroactively record infrastructure assets.

Assets are recorded at historical cost or estimated historical cost if purchased or construction. Donated capital assets received prior to June 15, 2015, are recorded at their estimated fair value at the date of donation. Donated capital assets received after June 15, 2015, are recorded at acquisition value. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Building, structures and improvements	10-40 years
Road equipment	10 years
Furniture, fixtures and equipment	7 years
Vehicles	7 years
Infrastructures	25 years
Waste water system	25 years

D. Deferred Outflows of Resources

In addition to assets, the balance sheet reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a use of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until that time. The Town has pension and OPEB related to deferred outflows of resource items that qualify for reporting in this category.

E. Compensated Absences

Vested or accumulated vacation leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported in the general long-term debt account group. No expenditure is reported for these amounts.

F. Deferred Inflows of Resources

In addition to liabilities, the balance sheet reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

STATE OF NEW MEXICO
TOWN OF EDGEWOOD
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

Revenue must be susceptible to accrual (measurable and available to finance expenditures of the current fiscal period) to be recognized. If assets are recognized in connection with a transaction, but those assets are not yet available to finance expenditures of the current fiscal period, then the assets must be offset by a corresponding liability for deferred inflows of resources. The Town has one types of items, which arises under the modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue-property taxes, is reported only in the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In addition, the Town has pension and OPEB related deferred inflows of resources items in government-wide financial statement that qualify for reporting in this category.

G. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employee Retirement Board (PERB) and additions to/deductions from PERB's fiduciary net position have been determined on the same basis as they are reported by PERB, on the economic resources measurement focus and accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

H. OPEB

Postemployment Benefits Other Than Pensions (OPEB). For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the New Mexico Retiree Health Care Authority (NMRHCA) and additions to and deductions from NMRHCA's fiduciary net position have been determined on the same basis as they are reported by NMRHCA. For this purpose, NMRHCA recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

I. Fund Balance

In the fund financial statements, governmental fund balances are classified as follows:

Nonspendable - fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes amounts to be held in perpetuity.

STATE OF NEW MEXICO
TOWN OF EDGEWOOD
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

Restricted - Fund balance should be reported when constraints placed on the use of resources are either:

- (a) Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or
- (b) Imposed by law through constitutional provisions or enabling legislation.
- (c) Enabling legislation, as the term is used in this Statement, authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that a government can be compelled by an external party-such as citizens, public interest groups, or the judiciary-to use resources created by enabling legislation only for the purposes specified by the legislation.

Unassigned - fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance. The Town's policy is to apply restricted resources first, committed sources second, assigned resources third, and unassigned resources last when an expense is incurred for purposes for which all or any fund balance classification is available.

J. Net Position

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net position invested in capital assets, net of related debt excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

K. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

L. Cash Flows

For purposes of the Statement of Cash Flows, the various enterprise funds consider all highly liquid assets with a maturity of three months or less when purchased to be cash equivalents.

M. Budgetary Information

Actual amounts on the budgetary basis are prepared on the cash basis of accounting which recognizes revenues when received and expenditures when paid. Annual budgets are adopted for the general, special revenue, debt service and capital projects funds.

The Town follows the following procedures for establishing the budgetary data reflected in the financial statements:

1. Prior to June 1, the Town Administrator submits to the Town Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them based on previous year's history. Public hearings are conducted at the Community Center to obtain taxpayer comments. Prior to July 1, the budget is legally enacted through passage of an ordinance.
2. The Town Administrator is authorized to transfer budgeted amounts between departments within any fund; however, any revisions that alter the total expenditures of any funds must be approved by the Town Council and the New Mexico State Department of Finance, Division of Local Governments.
3. Formal budgetary integration is employed as a management control device during the year for the general fund, special revenue funds, and capital projects funds.
4. The level of classification detail in which expenditures of expenses may not legally exceed appropriations for each budget is in fund total.

N. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Implementation of New Accounting Principles

GASB has issued the following statements, which are applicable in future years. Management has not determined the impact, if any, these future pronouncements will have on the Town.

GASB Statement No. 84, *Fiduciary Activities*.

Effective Date: The provisions in Statement 84 are effective for fiscal years beginning after December 15, 2019.

STATE OF NEW MEXICO
TOWN OF EDGEWOOD
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONT'D

This Statement establishes criteria for identifying fiduciary activities of all state and local governments:

- Focus of the criteria generally on whether a government is controlling the assets of the fiduciary activity and the beneficiaries with whom a fiduciary relationship exists.
- Separate criteria included to fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

GASB Statement No. 87, *Leases*.

Effective Date: The provisions in Statement 87 are effective for fiscal years beginning after December 15, 2021.

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*.

Effective Date: The provisions in Statement 89 are effective for fiscal years beginning after December 15, 2020.

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period.

GASB Statement No. 90, *Majority Equity Interests - an Amendment of GASB Statements No. 14 and No. 61*.

Effective Date: The provisions in Statement 90 are effective for fiscal years beginning after December 15, 2019.

This Statement modifies previous guidance for reporting a government's majority equity interest in a legally separate organization. This Statement also provides guidance for reporting a component unit if a government acquires a 100 percent equity interest in that component unit.

GASB Statement No. 91, *Conduit Debt Obligations*

Effective Date: The provisions in Statement 91 are effective for fiscal years beginning after December 15, 2021.

The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures.

NOTE 2 - CASH AND INVESTMENTS

Deposits

Custodial Credit Risk - Deposits. Custodial credit risk is, in the event of the failure of a depository financial institution, the Town will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Town does not have a deposit policy for custodial credit risk. Deposits are exposed to custodial credit risk if they are not covered by depository insurance and are (1) uncollateralized, (2) collateralized with securities held by the pledging financial institution, or (3) collateralized with securities held by the pledging financial institution's trust department or agent but not in the Town's name.

As of June 30, 2020, the Town's bank balance total of \$4,710,141 was exposed to credit risk in the amount of \$3,364,472 as follows:

Uninsured and collateral held by pledging bank's trust department not in the Town's name	\$ 2,045,626
Uninsured and uncollateralized	<u>1,318,846</u>
Total	<u><u>\$ 3,364,472</u></u>

<u>Reconciliation of Cash and cash equivalents</u>	<u>Amount</u>
Cash and cash equivalents per Statement of Net Position	\$ 4,426,560

Less: Petty cash	(100)
Add outstanding checks and other reconciling items	<u>258,584</u>
Bank balance of deposits	<u><u>\$ 4,710,141</u></u>

In accordance with Section 6-10-17, NMSA, 1978 Compilation, the Town is required to collateralize an amount equal to one-half of the public money in excess of FDIC insurance at each financial institution. At June 30, 2020, FDIC insurance is limited to \$250,000 for time and savings deposits and \$250,000 for demand deposits at each financial institution. The total balance in any single financial institution may at times exceed the FDIC coverage available to individual depositors. The Town is required to obtain from each bank that is a depository for public funds pledged collateral in an aggregate amount equal to one half of the public money in each account.

Credit Risk: The Town has no formal policy on managing credit risk. State law limits investments to certificates of deposits and similar obligations, state investment pool, money market accounts and United States Government obligations.

Investments

Concentration of Credit Risk Concentration of credit risk is the risk of loss attributable to the magnitude of the Town's investment in a single issuer. As of June 30, 2020, the Town has no items classified as investments.

General Information about the Pension Plan

Plan description

Public Employees Retirement Fund is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officer, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C- 1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

PERA issues a publicly available financial report and a comprehensive annual financial report that can be obtained at <http://saonm.org/> using the Audit Report Search function for agency 366.

Benefits provided

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors' annuities are also available.

TIER II:

The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member's age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by 0.50%, employee Contribution increased 1.50% and effective July 1, 2014 employer contributions were raised .05%. The computation of final average salary increased as the average of salary for 60 consecutive months.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The total pension liability was rolled forward from the valuation date to the plan year ending June 30, 2019 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2019. There were no significant events or changes in benefit provision that required an adjustment to the roll forward liabilities as of June 30, 2019. The Town of Edgewood's proportion of the net pension liability was based on a projection of the Town of Edgewood's long term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

Actuarial assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date	June 30, 2018
Actuarial Cost Method	Entry Age Normal
Amortization Period	Level Percentage of Pay
Asset Valuation Method	Solved for based on statutory rates
Actuarial assumptions:	
• Investment rate of return	7.25% annual rate, net of investment expense
• Projected benefit payment	100 years
• Payroll growth	3.00%
• Projected salary increases	3.25% to 13.50% annual rate
• Includes inflation at	2.50% annual rate
	2.75% all other years
Mortality Assumption	The mortality assumptions are based on the RPH-2014 Blue Collar mortality table with female ages set forward one year. Future improvement in mortality rates is assumed using 60% of the MP-2017 projection scale generationally. For non-public safety groups, 25% of in-service deaths are assumed to be duty related and 35% are assumed to be duty-related for public safety groups.
Experience Study Dates	July 1, 2008 to June 30, 2017 (demographic) and July 1, 2013 through June 30, 2017 (economic)

NOTE 7 - PENSION PLAN - PUBLIC EMPLOYEE RETIREMENT ASSOCIATION - CONT'D

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2018. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2019. These assumptions were adopted by the Board for use in the June 30, 2018 actuarial valuation.

Long-term expected rate of return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>ALL FUNDS - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	42.33 %	7.48%
Risk Reduction & Mitigation	21.37 %	2.37%
Credit Oriented Fixed Income	15.00 %	5.47%
Real Assets to include Real Estate Equity	20.00 %	6.48%
Multi- Risk Allocation	1.30 %	
Total	<u>100.00 %</u>	

Discount rate

A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2019. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the Town's proportionate share of the net pension liability to changes in the discount rate

The following presents the Town's proportionate share of the net pension liability, calculated using the discount rate of 7.25 percent, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

General Information about the OPEB

Plan description - Employees of the Town are provided with OPEB through the Retiree Health Care Fund (the Fund)—a cost-sharing multiple-employer defined benefit OPEB plan administered by the New Mexico Retiree Health Care Authority (NMRHCA). NMRHCA was formed February 13, 1990, under the New Mexico Retiree Health Care Act (the Act) of New Mexico Statutes Annotated, as amended (NMSA 1978), to administer the Fund under Section 10-7C-1-19 NMSA 1978. The Fund was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents and surviving spouses) who have retired or will retire from public service in New Mexico.

NMRHCA is an independent agency of the State of New Mexico. The funds administered by NMRHCA are considered part of the State of New Mexico financial reporting entity and are OPEB trust funds of the State of New Mexico. NMRHCA's financial information is included with the financial presentation of the State of New Mexico.

Benefits provided - The Fund is a multiple employer cost sharing defined benefit healthcare plan that provides eligible retirees (including terminated employees who have accumulated benefits but are not yet receiving them), their spouses, dependents and surviving spouses and dependents with health insurance and prescription drug benefits consisting of a plan, or optional plans of benefits, that can be contributions to the Fund and by co-payments or out-of-pocket payments of eligible retirees.

Contributions - Employer and employee contributions to the Fund total 3% for non-enhanced retirement plans and 3.75% of enhanced retirement plans of each participating employee's salary as required by Section 10-7C-15 NMSA 1978. The contributions are established by statute and are not based on an actuarial calculation. All employer and employee contributions are non-refundable under any circumstance, including termination of the employer's participation in the Fund. Contributions to the Fund from the Town were \$34,101 for the year ended June 30, 2020.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - At June 30, 2020, the Town reported a liability of \$1,113,436 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2019. The Town's proportion of the net OPEB liability was based on actual contributions provided to the Fund for the year ending June 30, 2019. At June 30, 2020, the Town's proportion was 0.03434 percent.

For the year ended June 30, 2020, the Town recognized OPEB expense (income) of \$(51,510). At June 30, 2020 the Town reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Rate of Return - The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions.

The best estimates for the long-term expected rate of return is summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Rate of Return</u>
U.S. core fixed income	20%	2.1%
U.S. equity - large cap	20%	7.1%
Non U.S. - emerging markets	15%	10.2%
Non U.S. - developed equities	12%	7.8%
Private equity	10%	11.8%
Credit and structured finance	10%	5.3%
Real estate	5%	4.9%
Absolute return	5%	4.1%
U.S. equity - small/mid cap	3%	7.1%

Discount Rate - The discount rate used to measure the total OPEB liability is 4.16% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates. For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2039. Thus, the 7.25% discount rate was used to calculate the net OPEB liability through 2039. The index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher was used beyond 2039, resulting in a blended discount rate of 4.16%.

NOTE 8 - POST-EMPLOYMENT BENEFITS - STATE RETIREE HEALTH CARE PLAN - CONT'D

Sensitivity of the net OPEB liability to changes in the discount rate and healthcare cost trend rates - The following presents the net OPEB liability of the Town, calculated using the discount rate of 4.16%, as well as what the Town's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.16 percent) or 1-percentage-point higher (5.16 percent) than the current discount rate:

1% Decrease (3.16%)	Current Discount Rate (4.16%)	1% Increase (5.16%)
\$ 1,362,001	\$ 1,113,436	\$ 918,041

The following presents the net OPEB liability of the Town, calculated using the current health trend rates, as well as what the Town's net OPEB liability would be if it were calculated using health cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current health cost trend rates:

1% Decrease	Current Trend Rates	1% Increase
\$ 927,007	\$ 1,113,436	\$ 1,262,699

NOTE 12 - CONTINGENCIES

Litigation. Claims have been filed against the Town and are in various stages of processing, and some may ultimately be brought to trial. It is not possible to estimate the likelihood and amount of such claims. Accordingly, no accrual has been made for them.

The former mayor was removed from office in November 2020 due to charges of violations of various Town ordinances and State statutes. He has denied any charges of wrongdoing, and is currently appealing all of the charges against him. The outcome of these charges, as of the date of this report, is unknown.

NOTE 14 - SUBSEQUENT EVENTS

Subsequent events were evaluated through December 15, 2020 which is the date the financial statements were available to be issued.

1. In September 2020, the Town Council approved changing its structure of governance from a Mayor-Council form of government to a structure where a commission governs a town manager.
2. The mayor of the Town was removed from office by a district court judge in November 2020. The mayor was charged with two violations. The first is that he violated the Town's nepotism ordinance by appointing a relative to the Town's planning and zoning commission. The second is that he violated the State Fraud against Taxpayers Act by not recusing himself from a vote on extending a sewer project that is owned by an immediate family member. The Mayor is currently appealing both charges and as of the date of this audit report, the outcome is uncertain.

COMPLIANCE SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

Mr. Brian S.Colón,
New Mexico State Auditor
Honorable Mayor and Town Council
Town of Edgewood
Edgewood, New Mexico

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons of the general fund and major special revenue fund of the Town of Edgewood, New Mexico (Town) as of and for the year ended June 30, 2020, and related notes to the financial statements, which collectively comprise the Town's basic financial statements, and the combining and individual funds financial of the Town's, presented as supplemental information, and have issued our report thereon dated December 15, 2020 and which was qualified because we were unable to obtain sufficient evidential matter to satisfy ourselves that capital assets, recorded for the Town are complete.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and responses, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses as items 2020-001 and 2020-005 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompany schedule of findings and responses as items 2020-003 and 2020-004 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as an item 2020-002.

The Town's Response to Findings

The Town's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. The Town's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

- Significant deficiency(ies) identified that are not considered to be material weakness? Yes
- Noncompliance material to financial statements noted? No

STATE OF NEW MEXICO
TOWN OF EDGEWOOD
SCHEDULE OF FINDINGS AND RESPONSES
FOR THE YEAR ENDED JUNE 30, 2020

SECTION II - AUDIT FINDINGS IN RELATION TO FINANCIAL STATEMENTS

2020-001 (2018-002) Annual Inventory Certification - Material Weakness - (PY Finding 2019-002) - Repeated and Modified

Condition:

The Town did perform an annual capital asset inventory certification of their capital assets listing. However, the listing was not complete and accurate prior to approval and certification. During our test work and analysis over capital assets, we noted several items which were not included in the assets listing prior to its certification and capital assets addition per listing is not matching with TB/GL detail of capital outlay.

The Town did make the effort of hiring a company to go back and identify old assets which were not on their listing.

Criteria:

According to Section 12-6-10 NMSA 1978, each agency is required to conduct an annual physical inventory of movable chattels and equipment on the inventory list at the end of each fiscal year. The agency shall certify the correctness of the inventory after the physical inventory. This certification should be provided to the agency's auditors. In addition, the Town should have detailed capital asset records to support the reported balance on the financial statements. These detailed records should include information such as description (including serial number or other identification number), source, acquisition date and cost, depreciable life, percentage of federal participation in the cost, location, and condition of the asset. All agencies shall maintain an inventory listing of capitalized chattels and equipment that cost over five thousand dollars (\$5,000). The IPA shall audit the inventory listing for correctness and compliance with the requirements of the Audit Act. Additionally, in accordance with 2.20.1.15 NMSA the Town shall establish controls over its capital assets for the primary purposes of safeguarding them and establishing accountability for their custody and use.

Cause:

The Town conducted a physical inventory count at year end. However, the certified list is not accurate and complete.

Effect:

The Town is not in compliance with the statutory requirement of conducting an annual count of inventory. Additionally, without including all the Town's assets, the listing is not complete and accurate. The Town is susceptible to misappropriation of assets as well as inaccurate depreciation expense, accumulated depreciation, and inaccurate additions and deletions of capital assets. Items could be present on the capital assets listing that do not exist or items could also exist that are not on the listing. The listing is misstated.

SECTION II - AUDIT FINDINGS IN RELATION TO FINANCIAL STATEMENTS - CONT'D

2020-001 (2018-002) Annual Inventory Certification - Material Weakness - (PY Finding 2019-002) - Repeated and Modified - Cont'd

Recommendation:

We recommend the Town implement a system to accurately track, maintain and update changes in inventory on an annual basis. We also recommend going back and making sure that the listing is accurate and account for all items that should be recorded and capitalized.

Management Response:

Management agrees with the recommendation of the auditors. The Town has made great progress in updating its capital asset inventory listing. All physical assets are now accounted for and on the asset list. The Town is in the process and will have an updated list presented to the Governing Body within the fiscal year showing all intangible assets, planning documents, and construction in progress.

SCHEDULE OF FINDINGS AND RESPONSES

SECTION II - AUDIT FINDINGS IN RELATION TO FINANCIAL STATEMENTS - CONT'D

2020-002 Stale Dated Check - Other Noncompliance- (PY Finding 2019-004) - Repeated and Modified

Condition:

The Town had 2 Stale Checks in the Wells Fargo Pooled Cash Account which were over one-year-old. The Town did send written notice to the apparent owner. However, the Town has not reported the payees or turned over the funds to the Unclaimed Property Division of the New Mexico Taxation and Revenue Department.

The Town made progress in resolving this finding.

Criteria:

Section 7-8A-7 D, NMSA 1978, sets forth the processes and requirements to report about the payee and related funds (by November 1 of each year and covering the twelve-month period preceding July 1 of that year) to the Unclaimed Property Division of the New Mexico Taxation and Revenue Department for outstanding checks that were distributed but not cashed within one year. Additionally, per Section 7-8A-7 F, NMSA 1978, the Town shall send written notice to the apparent owner, not more than one hundred twenty days or less than sixty days before filing the report.

Cause:

The Town overlooked the Stale dated checks during the bank reconciliation process, and did not void these checks on a timely basis.

Effect:

The Town's cash balance may be misstated by the amount of the stale checks.

Recommendation:

We recommend that the Town put into place a system to account for and track stale dated checks and also review the outstanding check register as soon as possible to determine which checks meet the requirements of the Act in order to insure compliance. Once they identify all stale checks, the Town should send a written notice to the apparent owner, not more than one hundred twenty days or less than sixty days before filing the unclaimed property report.

Management's Response:

Management agrees with the recommendation of the auditors and is working to resolve the issue. The Town is in contact with the apparent owners of the two checks to re-issue the funds to them.

SECTION II - AUDIT FINDINGS IN RELATION TO FINANCIAL STATEMENTS - CONT'D

2020-003 Internal Control over Cash and Monthly Closing Process - Significant Deficiency - (PY Finding 2019-006) - Repeated and Modified

Condition:

During our review of the bank reconciliations to determine whether bank reconciliations are being performed in a timely manner and whether all bank and investment statements for the fiscal year are complete and on-hand, we noted that the Town did perform the bank reconciliation for each month no later than 29 days from the statement date, however, as per review of the minutes we noted some instances where the monthly financial reporting packet was not provided to the trustees at the monthly council meetings.

The Town did make progress in resolving this finding.

Criteria:

Section 6-6-3 NMSA, 1978 discusses good accounting practices and require every entity shall establish and maintain an internal control structure to provide management with reasonable assurance that assets are safeguarded against loss from unauthorized use or fraudulent activities.

Cause:

Monthly financial reporting packet was not provided to the trustees timely.

Effect:

Material errors or omissions could go unnoticed, and the Trustees are not able to perform their duty of oversight over the financial reporting process in a timely manner.

Recommendation:

We recommend that the Town put into place a strategy to make sure that financial reports are provided in a timely manner to the Trustees.

Management's Response:

Management agrees with the recommendation of the auditors and has made changes to adjust for and ensure that the financial reports are provided to the Governing Body each month. The changes unfortunately were not in place at the beginning of the fiscal year and there were some instances where the Governing Body did not get the report in a timely manner.

SECTION II - AUDIT FINDINGS IN RELATION TO FINANCIAL STATEMENTS - CONT'D

2020-004 Internal Control over Cash Disbursement - Significant Deficiency

Condition:

During our testwork of disbursements, we noted the following deficiencies:

- Out of 10 Gas Card transactions tested, for 2 samples, there was no receipt to substantiate the charge on the statement and for 1 sample, the odometer reading was not entered in correctly.

Criteria:

Good accounting and internal control practices require that all disbursements must originate with authorizing documents, and be supported by properly approved documents such as purchase orders, bills, petty cash reimbursement forms, payroll and time records, leases, contracts, or other supporting documents.

Cause:

The Town staff did not ensure that all of the required documentation and procedures were in place prior to final disbursement of funds.

Effect:

The lack of implementing adequate policies and procedures over disbursements and enforcing proper segregation of duties may result in a non authorized or incorrect calculation of invoices.

Recommendation:

The Town is encouraged to have all personnel in charge of preparing, reviewing, and approving disbursements perform a review of all supporting documents to ensure accuracy and appropriate payments for purchases and reimbursements.

Management's Response:

Management agrees with the auditor's recommendation. Management will create and implement a policy and procedure for fuel card usage. The policy will be submitted to the Governing Body for review by the end of the fiscal year and all employees will be trained on the policy.

SECTION II - AUDIT FINDINGS IN RELATION TO FINANCIAL STATEMENTS - CONT'D

2020-005 Internal Control Over Financial Close and Reporting (Material Weakness)

Condition:

During our audit, the following issues were noted related to the Town's financial close and reporting process: There were unsupported accounts receivable and payable balances of governmental and business type funds at year end and gross receipt tax, gasoline tax and other receivable balances of governmental funds and business type funds are unchanged from the prior year. The Town lacks controls to ensure all accounts receivable and payable are reconciled during the year or at year-end.

Criteria:

The Town is responsible for maintaining effective internal controls over their accounting records, account balances, and financial statement disclosures. Accounting records should include a complete, balanced general ledger that records all transactions, supported by appropriate subsidiary records, to permit the preparation of accurate financial statements. Procedures should be in place to ensure that balance sheet accounts are independently reviewed and reconciled to subsidiary records at the very least, on a monthly basis.

Cause:

Lack of established internal controls and processes over financial reporting to ensure accurate financial reporting and operation.

Effect:

The Town's financial statements contained material misstatements, which required adjustments. Without established and effective internal controls and year-end reconciliation procedures, the Town's balances lack certainty as to the accuracy of the balances.

Recommendation:

We recommend that management evaluate all aspects of the financial close and reporting processes, and establish effective internal controls and procedures to ensure accurate financial statements and supporting schedules.

Management's Response:

Management agrees with the auditor's recommendation. Due to limited staff and the timing of key personnel changes during the fiscal year, all aspects of the financial close were not able to be reviewed prior to close. Management had requested that the Governing Body authorize a hire prior to fiscal year to help ensure that there would be a smooth transition, but due to budget concerns of the Governing Body, that hire was not authorized until after the fiscal year end. Management is working to develop procedures to ensure that end of year closing processes are reviewed prior to close.
